Createspace Independent Publishing Platform, United States, 2014. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.The Second Edition of this book on harmonizing the Creation Week and Science expanded on the initial book with more insights and hard questions that need to be asked and dealt with on both side of the argument. On the one hand we have to ask the question whether the Bible propose a very young earth, only six thousand years old. The answer is no! The Bible actually supports a very old earth. A wholistic aproach to the Bible answers the question, and means we need to look at Genesis One with an open mind. Like many prophesies in the Bible, it is both prophetic and realistic. On the other hand, has science been honest about it s observations and in particular it s conclusions? The answer is no! Recent discoveries cast a shadow of doubt over some scientific conclusions that proved to be theories that may be wrong! A further analysis shows just how preciously balanced life is on this earth. In the end we can prove that Science also asks of it s followers to take a leap of faith. The question remains: who do you believe?.
