

Transportation: Further Examination of the East Chicago, Indiana, Highway Ramp Collapse Could Help Prevent Similar Accidents: Ced-82-1

By -

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 30 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. In response to a congressional request, GAO reviewed the adequacy of the Federal Governments investigation of the collapse of a highway ramp under construction in East Chicago, Indiana, to determine whether the investigation is employing all available resources. The project is 90-percent funded by the Department of Transportation. On April 15, 1982, three sections of the ramp collapsed, killing 13 workers and injuring 17 others. The Occupational Safety and Health Administration (OSHA), the National Bureau of Standards (NBS), and the Federal Highway Administration (FHWA) are involved in the investigation. NBS and FHWA are seeking to determine the technical cause of the accident at the request of OSHA. Indiana OSHA will use the results of the investigation as a basis for determining the need to issue appropriate citations and penalties for violations of occupational safety standards. The major objectives of the accident investigation are to determine the accidents cause and prevent further occurrences. Federal officials acted promptly in the aftermath of the collapse, and the agencies are coordinating their efforts to determine the technical cause. NBS appears to be well qualified to...

Reviews

Completely essential read through ebook. This can be for all who statte there was not a well worth reading. You wont really feel monotony at at any time of your own time (that's what catalogs are for relating to if you request me).
