

Information Processing in Autonomous Mobile Robots: Proceedings of the International Workshop March 6-8, 1991 Technische Universität München Germany

By -

Springer. Paperback. Book Condition: New. Paperback. 354 pages. Dimensions: 9.2in. x 6.1in. x 0.8in. This volume is a collection of 22 papers presented at the International Workshop on Information Processing in Autonomous Mobile Robots, held in Munich (Germany) in March 1991. Autonomous mobile robot technologies are generating significant interest because of their potential capabilities for future applications on the plant floor as well as in the service industry. Autonomous robots may navigate around factories and laboratories, hospitals, office-buildings, airports or similar public and semi-public places. They may deliver equipment, collect garbage and perform other such tasks. One of the major challenges for the field of autonomous mobile robot research is to develop robust and real-time systems for perception and understanding of complicated real environments as well as for intelligent decision-making with respect to proper actions. This Workshop was set up to stimulate discussion and the exchange of new ideas on various aspects of autonomous mobile robot methodologies and applications. The main focal points of the Workshop program were sensing and perception, navigation and control, knowledge bases and computer architectures as well as various applications. The papers are prepared by leading experts in these areas from Europe, Japan, the United States and...

Reviews

Totally among the best ebook I have ever go through. It can be rally exciting through looking at period. Its been printed in an extremely straightforward way which is just soon after i finished reading this pdf by which actually transformed me, change the way i believe.
